5. Please comment on any aspect of this recitation.

22290. I feel like the topics covered during recitation were always helpful, related to current lecture topics, and weren't too difficult or easy.

19900. Everything is great, just the atmosphere is a little dead, just people working on the problems alone. I think it takes a bit of prompting to get people excited and talking, but I know it is hard to do just that.

9866. Mark was a very helpful TA and had an excellent command of Linear Algebra. Recitations were also well organized and definitely helped me become a better student.

19505. I liked the structure, quick recap of topics at beginning before applying/extending them.
