5. Please comment on any aspect of this recitation.

18740. My TA, Mark, reviewed the topics well and cultivated a comfortable space to ask questions and learn but my only critique was that I wish he was more interested in how we students were doing instead of walking around once every 20 mins.

28155. The recitation was generally helpful in reinforcing my understanding of the material while also showing some cool applications of linear algebra. TA was helpful overall and was able to explain questions well.

28192. Very helpful handouts for exams

18798. loved the TA super helpful and great in explaining things/leading people to the answer

29690. During recitation, we would usually not finish all of the questions on time, so the pacing could be improved.

6993. This TA was very effective in his discussions and very helpful during office hours.
